Increase production with

INOCULATION

Every pound or bushel or ton added to the yield
helps the war effort.

Inoculated seed gives better yields, better qual-
ity on all legumes—Clovers, Beans, Peas. Cost
per acre is very small.

Inoculated Soybeans yield 2 to 4 bushels more
per acre, better quality. Widespread use of
inoculation on Soybeans will increase the total
yield millions of bushels—more oil, more meal.

Soybeans respond to inoculation even where
planted on land previously used for Soybeans.
